Smart Form

Completion Guidance March 2017

General Guidance

How should I complete the form?

The form should be completed on screen and in chronological order. This is because some of the sections that become visible in later sections are dependent upon the answers to questions found in earlier sections.

Do I need to type into every field?

You should complete all the fields marked with a red border and any others that are relevant to your application. Where a drop down list is available, please use it. It is also possible to search the Country listing using the first letter of the Country.

Why can't I enter text or numbers into some fields?

In most cases where numbers are required e.g. Telephone number, trying to key letters will not move the cursor in the box. The field should work properly when the correct type of character is entered.

How do I know that the correct sections are available for me to enter information?

Ensure that 'Enter' key is pressed every time an entry is completed, particularly where a number has been selected or pre-populated to ensure the relevant sections become visible.

Why are some fields within the form mandatory?

The form is designed to ensure that we capture all the relevant information for your application which will increase the chances of your application being processed right first time.

How should I print the Smart form?

Please use the print button in section 11 on the Limited Company form and Section 10 on the Trust form. There is more information on this feature later in this pack.

If I make a mistake, can I change my answers?

Yes, please delete the original answer or change the number and press enter (or tab if in an expandable box). Please ensure that ALL number selections in section 8 on the Limited Company form and Section 7 on the Trust form after the change are entered again as new fields may have become visible and require completion and/or some data may have been lost.

I have completed the form, can I change my answers?

Yes, please delete the original answer or change the number and press enter (or tab if in an expandable box). Please ensure that ALL number selections in section 8 on the Limited Company form and Section 7 on the Trust form after the change are entered again as new fields may have become visible and require completion and/or some data may have been lost.

Can I save the form?

It is possible to save the form, however we recommend that the form is completed in one attempt.

How do I submit my application?

You should print the application form using the PRINT button, after the agreement (Section 11 on the Limited Company form and section 10 on the Trust form) obtain the relevant signatures and submit to the Bank using your usual process. Please ensure to enclose all relevant additional documentation.

Does the introduction of smart form mean quicker turnaround times for opening accounts?

The smart form has been designed to be bespoke to each entity's individual requirements. All the compulsory fields are marked in Red and completion of these will assist in the application being processed right first time.

If I want to open further accounts at a later stage, will I need to complete the Smart Form again?

At this time if you want to open additional accounts for the same legal entity you will have to complete the existing 'paper' Additional Account Application form.
